BENTLEY STANCIL · age 9 · Wendell, North Carolina

BETTY CULLER STOCK · age 87 · Morganton, North Carolina

NOLAN WELLS · age 18 · Ocean Springs, Mississippi

Two came home. One did not.

02 · TITLE

WHEN A PERSON CANNOT CALL FOR HELP

They cannot call for help. You can.

50 minutes. Three skills. Nothing held back.

For families, caregivers, and the people who answer when they call.

Serve people · Protect dignity · Reduce uncertainty · Accelerate response.

Dr. Darlene Williams-Prades · Founder, Watch Owl™ · Superior Love Forever, LLC

03 · WHOLE PERSON

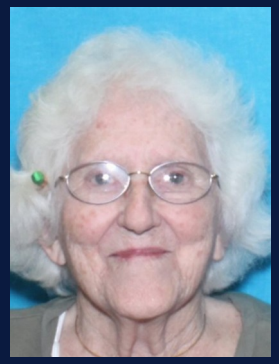
EVERY NAME ON THIS MAP IS SOMEONE'S WHOLE WORLD · THE FACES

The faces are not evidence of a category. They are a reminder that each report names a whole person.

BENTLEY STANCIL

age 9 · Wendell, North Carolina

A whole person, not a location and a time.



BETTY CULLER STOCK

age 87 · Morganton, North Carolina

A whole person, not a location and a time.

NOLAN WELLS

age 18 · Ocean Springs, Mississippi

A whole person, not a location and a time.

Reported cases, credited as public record. Sources: WRAL, the News and Observer, WCCB Charlotte.

04 · THE QUESTION

THE QUESTION

What are the correct next steps?

What information do we need to know to serve, save, and bring closure?

Can care become usable information when someone cannot carry the whole story?

VOICE OVER · THEN THE SPEAKER TAKES THE ROOM.

05 · THE PEOPLE AT THE CENTER

WHO WE SERVE, SAVE, AND BRING CLOSURE TO

- The elderly · living with dementia or Alzheimer's
- Children · including those who wander, or cannot speak
- Veterans · in crisis or disoriented
- People with disabilities · seen and unseen
- **The caregiver · awake at 2 a.m.**
- **The responder · arriving with no information.**

This is who we serve. This is who we save. This is whose family we bring closure to.

06 · THE PATHWAYS

01 · MISSING CHILD

WHAT THIS PATHWAY LEADS TO

Helps locate missing children quickly and brings them home safely.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

07 · THE PATHWAYS

02 · MISSING ELDER

WHAT THIS PATHWAY LEADS TO

Finds missing seniors with dementia or cognitive conditions.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

08 · THE PATHWAYS

03 · AUTISTIC TEENAGER

WHAT THIS PATHWAY LEADS TO

Locates autistic individuals who wander and may be non-verbal.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

09 · THE PATHWAYS

04 · FIREFIGHTER

WHAT THIS PATHWAY LEADS TO

FUTURE PATHWAY · subject to validation and review.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

10 · THE PATHWAYS

05 · POLICE

WHAT THIS PATHWAY LEADS TO

FUTURE PATHWAY · subject to validation and review.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

11 · THE PATHWAYS

06 · MILITARY VETERAN

WHAT THIS PATHWAY LEADS TO

Supports planning for veterans who may be disoriented or need assistance.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

12 · THE PATHWAYS

07 · LOST HIKER

WHAT THIS PATHWAY LEADS TO

Finds lost hikers in remote and challenging terrain.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

13 · THE PATHWAYS

08 · MEDICAL EMERGENCY

WHAT THIS PATHWAY LEADS TO

FUTURE PATHWAY · subject to validation and review.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

14 · GOVERNED DEVELOPMENT

09 · HUMAN TRAFFICKING

WHAT THIS PATHWAY LEADS TO

GOVERNED DEVELOPMENT · survivor-centered planning and review.

Person first. Context ready. Response coordinated.

MARK HUMAN TRAFFICKING · GOVERNED DEVELOPMENT · survivor-centered planning and review

15 · THE PATHWAYS

10 · CHILDREN AT SCHOOL

WHAT THIS PATHWAY LEADS TO

Keeps students safe at school, on buses, and during school activities.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

16 · THE PATHWAYS

11 · ALZHEIMER'S FACILITIES

WHAT THIS PATHWAY LEADS TO

Helps staff quickly locate residents with dementia or Alzheimer's.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

17 · THE PATHWAYS

12 · FIRST RESPONDERS & K-9

WHAT THIS PATHWAY LEADS TO

FUTURE PATHWAY · subject to validation and review.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

18 · THE PATHWAYS

13 · WINTER SAFETY

WHAT THIS PATHWAY LEADS TO

Concept image from the source grid; original panel concerns water safety.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

19 · THE PATHWAYS

14 · PETS & SERVICE ANIMALS

WHAT THIS PATHWAY LEADS TO

Supports coordinated recovery when pets or service animals are lost or separated.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

20 · THE PATHWAYS

15 · CORRECTIONS & HIGH-RISK FACILITIES

WHAT THIS PATHWAY LEADS TO

FUTURE PATHWAY · subject to validation and review.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

21 · THE PATHWAYS

16 · RURAL SEARCH & RESCUES

WHAT THIS PATHWAY LEADS TO

FUTURE PATHWAY · subject to validation and review.

Person first. Context ready. Response coordinated.

A value work stream held to context, consent, validation, and review.

22 · THE PRESSURE IS DOCUMENTED

WHY NOW

7.4 million

Americans age 65 and older are living with Alzheimer's dementia.

6 in 10

people living with dementia will wander at least once.

49%

of children with autism attempt to elope after age 4. Of those missing long enough to cause concern, 24% were in danger of drowning.

Sources: Alzheimer's Association, 2026 Facts and Figures. Anderson et al., Pediatrics, 2012.

23 · THREE REAL CASES

TWO CAME HOME. ONE DID NOT.

BENTLEY STANCIL

Wendell, North Carolina · November 2022.

He was 9. He walked away from his bus stop and did not get on the bus. An Amber Alert was issued. He was found safe about twenty hours later, hiding in a camper in the woods, with a sprained ankle. He came home.

BETTY CULLER STOCK

Morganton, North Carolina · June 2017.

She was 87 and living with cognitive impairment. A Silver Alert was issued. She was found safe in Iredell County. She came home too.

NOLAN WELLS

Ocean Springs, Mississippi · July 2026.

He was 18. He went out on a boat to Horn Island and did not come back with the others. He was found two days later. Two autopsies ruled the cause and manner of death undetermined. A grand jury found no credible evidence of criminal conduct. His family is still asking for answers.

Sources: WRAL, the News and Observer, and WCCB Charlotte. Reported cases, credited as public record.

24 · THE GAP

WHY HE FELL THROUGH

AMBER ALERT	exists for an abducted child.
SILVER ALERT	exists for a missing or endangered adult. Most states set an age, or require a documented cognitive condition. The rules change from state to state.
NOLAN WELLS	was 18. Legally an adult. Not a child, and not elderly. Neither door cleanly fit him.

The system waits for a category.
The person cannot.

The useful question is what information can move first, who has authority to act on it, and how the next person can meet the individual with dignity instead of guesswork.

25 · PROVENANCE

THE COMPETITION

What is defensible and true:

A NAMED COMMUNITY

The work began with people who could be named, heard, and described without abstraction.

A DOCUMENTED NEED

The question was grounded in public cases, caregiver realities, and 12,000+ survey signals.

INDEPENDENT REVIEW

An independent advisor review comes before any claim reaches a room. Isaac Blount is listed as the business advisor.

BUILT WITH CAREGIVERS

The method is built with caregivers rather than for them. Their corrections shape what survives.

The point is provenance: a visible starting place, a visible discipline, and a method that can be corrected.

26 · ROOM QUESTION

WHAT WOULD YOU RECOGNIZE?

ASK THE ROOM, THEN WAIT FOR ANSWERS

Would you recognize dementia?

Would you recognize Alzheimer's?

Would you recognize autism?

Would you recognize PTSD?

Not from across a street. No one in this room can reliably identify a condition from a distance. The five facts exist so nobody has to guess.

27 · IMMEDIATE LAUNCH FOCUS

THE REACH · NEAR FOCUS

DEMENTIA + ALZHEIMER'S

The immediate launch focus.

THE CAREGIVER

The person carrying the map at 2 a.m.

Near focus is a discipline: begin where the need is clearest, then validate what holds.

28 · GOVERNED PATHWAYS

THE REACH · THE FULL HORIZON

Autism

HUMAN TRAFFICKING	**GOVERNED DEVELOPMENT · survivor-centered planning and review.**

People who are disoriented or in distress and cannot communicate.

Beyond the launch focus, each pathway earns its place through governance, evidence, and review.

29 · PLATFORM FIRST

PLATFORM, NOT THE DEVICE

Watch Owl is a value stream platform.

The wristband is the entry point.

The platform reaches any device.

The connection and the daily workflow are the product.

Hardware is incidental.

The platform is the subject. The entry point is only how the work begins.

30 · GOVERNED ACCESS

WHAT THE PLATFORM HOLDS

CAREGIVER-HELD LOCK

The caregiver-held lock governs the profile.

Every caregiver receives individual access.

One primary caregiver holds the emergency override.

DESIGN INTENT

Nomex and Kevlar class materials for fire, water, and cut resistance.

AHEAD

Nanites are what is ahead.

The platform holds permission, context, and responsibility before it holds anything else.

31 · THE PLATFORM IN CONTEXT

THE ARCHITECTURE

A platform for people, permission, and coordinated response.

CONCEPT RENDERING · final production design may vary.

ESCALATION SYSTEM

LEVEL 1 · SILENT CHECK-IN
A quiet check-in through the agreed access point.

LEVEL 2 · CAREGIVER ALERT
A caregiver notification: something needs attention.

LEVEL 3 · EMERGENCY ESCALATION
A pre-agreed next step prompts a person to act.

32 · THE METHOD

THE METHOD · THREE SKILLS. ONE PROMISE.

SKILL 1 · THE 90-SECOND DESCRIPTION

1. Who they are.
2. What they look like now, and what they are wearing today.
3. When and where they were last seen.
4. What makes them vulnerable, or what they respond to.
5. Who to call, and how to reach them.

SKILL 2 · THE BOUNDARY YOU SET IN DAYLIGHT

Choose the place. Name the distance. Name who should know. Agree what the first signal means.

SKILL 3 · THE HANDOFF IN SIX STEPS

Detect · Identify · Notify · Escalate · Respond · Resolve.

We will teach all three completely. Nothing will be held back for a later reveal.

33 · PRACTICE

PRACTICE · WATCH, THEN DECIDE WHAT YOU WOULD DO

OLDER ADULT AT DUSK

An older adult with dementia leaves the house at dusk.

Who sees it first, and who is reached?
What helps the person orient?

AUTISTIC BOY IN A CROWDED STORE

A non-speaking autistic boy separates from his mother in a crowded store.

Who speaks for him?
What will calm him, and who should staff reach?

VETERAN LEAVING AFTER MIDNIGHT

A veteran in crisis walks away from home after midnight.

Who does he trust?
What would make the response safer, not louder?

ASK THE ROOM, THEN WAIT FOR ANSWERS

34 · PROPOSED VALIDATION

ROCKY MOUNT 2027 · THE FOUR-PHASE PILOT

WATCH OWL™ · Four-Phase Pilot Program · January to December 2027 · Starting Location: Rocky Mount, North Carolina.

Q1 · JANUARY TO MARCH	Q2 · APRIL TO JUNE	Q3 · JULY TO SEPTEMBER	Q4 · OCTOBER TO DECEMBER
25–50	75–100	150–250	300–500

Targets are active participants per phase, not cumulative enrollment. Expansion depends on successful validation and available funding.

Fifty people in Rocky Mount volunteered for the first proposed pilot.
Community commitment is not yet tested results.

Small print on this page: SBA certified WOSB · VOSB · EDWOSB (2025 to 2028).

35 · CLOSING

IN THEIR NAMES + CLOSING

BENTLEY STANCIL · age 9 · Wendell, North Carolina
BETTY CULLER STOCK · age 87 · Morganton, North Carolina
NOLAN WELLS · age 18 · Ocean Springs, Mississippi

Two came home. One did not.

People should not have to be powerful, articulate, or connected for their safety to matter.

Technology should help humanity respond better, not replace it.

Governance · documented protocols · evidence · partners · stewardship, so the mission outlives its founder.

Built to reach responders, not just an app.

To save. To bring closure.

Dr. Darlene Williams-Prades · Founder, Watch Owl™ · Superior Love Forever, LLC
